EWE LIN LOO

WEB DEVELOPER

ABOUT ME

I was first introduced to coding while participating in online communities like Neopets and GaiaOnline. Today, I enjoy being involved in the developer community by speaking at meetups like Ruby on Rails Oceania and attending hackathons like #flattenthecurvehack.

I love dogs, particularly greyhounds. I've spent a couple of months volunteering for Assistance Dogs Australia and currently sponsor a hound at Greyhound Rescue.

I'm a master dabbler. Past hobbies I've dabbled in include: knitting and crochet, plus various musical instruments such as clarinet, ukulele, classical guitar, and singing.

Ewe Lin ("you-lin") is a Sydney-based Australian Citizen

SKILLS

React / React Native	JavaScript	Jest / Enzyme
MongoDB	HTML / CSS / Bootstrap	REST APIs / AJAX / JSON
ExpressJS	SASS / SCSS	Ruby
Node	Git	UX Design

RELEVANT EXPERIENCE

Australian National Education Institute
IT Admin | Jan - July 2021
- Produced and maintained website according to directives

Tristan Southwell
Sub-contract | April - May 2020
- Developed React UI according to provided wireframes with pixel perfection

fixitfaster
Intern | Feb - March 2020
- Built an analytics dashboard that displays data in graph and table formats
- Parsed data of 100 clients from .csv format
- Used TypeScript, React Native, Moment,js and d3.js

PROJECT HIGHLIGHTS

Australia's Weather
https://github.com/elloo/weather-app-v2 (CLICK HERE) | Oct - Nov 2021
- Used API from OpenWeatherMap to build a React weather display
- Styled with React-Bootstrap, links with React-Router
- d3 graphical representation of weather data

eCalendar
https://github.com/elloo/eCalendar (CLICK HERE) | April 2020
- Built a responsive calendar using Flexbox, HTML, CSS, and JavaScript
- Dates, highlighting, days, months and year are all dynamically generated

Start-Up Again - a marketplace for startup technologies
https://github.com/elloo/mern_final_app (CLICK HERE) | Dec 2019 - Feb 2020
- Integrated Google OAuth.
- Implemented unit and integration tests with Jest and Enzyme

News Display
https://github.com/elloo/news_display (CLICK HERE) | Sept 2019
- Built with ExpressJS
- Used two separate APIs with asynchronous JavaScript async / await functions

EDUCATIONAL HISTORY

Coder Academy - Academy of Information Technology
Diploma of Information Technology | March 2019 to Feb 2020

Academy Xi
UX Elevate (Part-time) | July to Aug 2018
- Used design thinking, personas & journeys, prototyping, usability testing and more.

HarvardX
CS50x Introduction to Computer Science | Nov 2017 to Jan 2018

University of New South Wales
Bachelor of Digital Media | Graduated 2014
- Introduction to Interactive Media Arts (Credit).
- Colour, Composition and Typography (Credit).
- Digital Theory and Aesthetics (Credit).
- Web Authoring (Distinction).
- Professional Practice (Distinction).
